$$\text{Qty 2: } 11.35 \text{ chg} \times \frac{\pi}{2} = 22.70 = \underline{\underline{45.40}}$$

$$\text{Qty 16: } .48 \text{ chg} \times 2 = 0.96 = \underline{\underline{15.36}}$$

$$\text{Qty 4: } .55 \text{ chg} \times 2 = 1.02 = \underline{\underline{4.08}}$$

Feedback

Capitale -> Pierre Vanasse

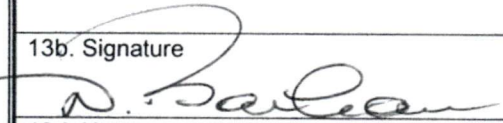

2016 07 12

Martin Lelièvre me dit:

Son client a acheté son heli chez
Capitale helico. Ils n'avaient pas
posé le ^{low} U dip airien. Donc
martin a dû piger dans la
paie qu'il avait en stock
et donc il m'a commandé
ces pièces pour refaire son
kit HTE-RC - 13 (025-05
et le remettre en stock.

Voici pourquoi cette FORM 1.
a été faite avec "R1"
pour tout mettre en FORM 1.

December 11, 2013

Object: Shorter Bolts for tighter fit on Bearpaws for R44/R66

To whom concerned,

It has been brought to our attention that some cases call for slightly longer or shorter bolts to get the best fit in attaching the U-Clips to the skids. As mentioned in the installation instructions, the use of longer or shorter bolts may be adjusted as required (314-0011-00- Rev. D - p 3/14, Step 3).

We have thus included in this package, extra bolts to allow you to adapt installation to your preference. In most cases shorter bolts may be needed so the extra bolt package includes AN4-15A and AN4-14A:

Original bolts package contains:		Extra bolts package contains:		
Front tip:	AN4-16A	→	Front tip: AN4-15A	
Center:	AN4-15A	→	Center: AN4-14A & Add 1 washer	
Aft:	AN4-15A	→	Aft: AN4-16A	

Should you have any question, do not hesitate to contact us.

Nathalie Barbeau
VP Commercial Affairs,
Helitowcart (Vanair inc)

- 2- Installers working in accordance with the national regulations of a country other than that specified in block 1 must ensure that their regulations recognize certifications from the country specified.
- 3- Statements 13a & 14a do not constitute installation certification. In all cases the technical record for the aircraft must contain an installation certification issued in accordance with the applicable national regulations before the aircraft may be flown

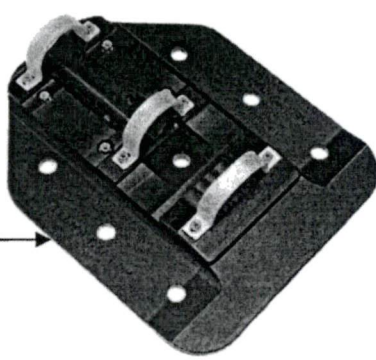

December 11, 2013

Object: Shorter Bolts for tighter fit on Bearpaws for R44/R66

To whom concerned,

It has been brought to our attention that some cases call for slightly longer or shorter bolts to get the best fit in attaching the U-Clips to the skids. As mentioned in the installation instructions, the use of longer or shorter bolts may be adjusted as required (314-0011-00- Rev. D - p 3/14, Step 3).

We have thus included in this package, extra bolts to allow you to adapt installation to your preference. In most cases shorter bolts may be needed so the extra bolt package includes AN4-15A and AN4-14A:

Original bolts package contains:	Extra bolts package contains:	
Front tip: AN4-16A	Front tip: AN4-15A	
Center: AN4-15A	Center: AN4-14A & Add 1 washer	
Aft: AN4-15A	Aft: AN4-16A	

Should you have any question, do not hesitate to contact us.

Nathalie Barbeau
VP Commercial Affairs,
Helitowcart (Vanair inc)

December 11, 2013

Object: Shorter Bolts for tighter fit on Bearpaws for R44/R66

To whom concerned,

It has been brought to our attention that some cases call for slightly longer or shorter bolts to get the best fit in attaching the U-Clips to the skids. As mentioned in the installation instructions, the use of longer or shorter bolts may be adjusted as required (314-0011-00- Rev. D - p 3/14, Step 3).

We have thus included in this package, extra bolts to allow you to adapt installation to your preference. In most cases shorter bolts may be needed so the extra bolt package includes AN4-15A and AN4-14A:

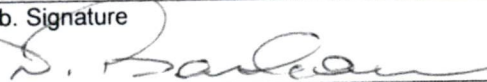

Original bolts package contains:		Extra bolts package contains:		
Front tip:	AN4-16A	Front tip:	AN4-15A	
Center:	AN4-15A	Center:	AN4-14A & Add 1 washer	
Aft:	AN4-15A	Aft:	AN4-16A	

Should you have any question, do not hesitate to contact us.

Nathalie Barbeau
VP Commercial Affairs,
Helitowcart (Vanair inc)

- 1- This document does not constitute authority to install the part.
- 2- Installers working in accordance with the national regulations of a country other than that specified in block 1 must ensure that their regulations recognize certifications from the country specified.
- 3- Statements 13a & 14a do not constitute installation certification. In all cases the technical record for the aircraft must contain an installation certification issued in accordance with the applicable national regulations before the aircraft may be flown

December 11, 2013

Object: Shorter Bolts for tighter fit on Bearpaws for R44/R66

To whom concerned,

It has been brought to our attention that some cases call for slightly longer or shorter bolts to get the best fit in attaching the U-Clips to the skids. As mentioned in the installation instructions, the use of longer or shorter bolts may be adjusted as required (314-0011-00- Rev. D - p 3/14, Step 3).

We have thus included in this package, extra bolts to allow you to adapt installation to your preference. In most cases shorter bolts may be needed so the extra bolt package includes AN4-15A and AN4-14A:

Original bolts package contains:	Extra bolts package contains:	
Front tip: AN4-16A	Front tip: AN4-15A	
Center: AN4-15A	Center: AN4-14A & Add 1 washer	
Aft: AN4-15A	Aft: AN4-16A	

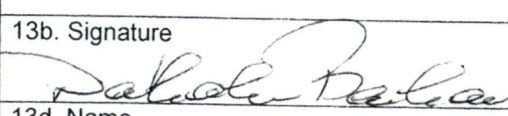

Should you have any question, do not hesitate to contact us.

N. Barbeau

Nathalie Barbeau

Subject: Documents pour BP44-66

Chris,

Voici les deux documents pour ton approbation des bearpaws de 44 qui ont été posés sur le R66 qui est chez toi.

Appelle-moi si tu as des questions. Ces deux documents sont complémentaires au kit de documents qui a été fourni avec la paire à l'époque.

Aussi, svp me dire le no de série de cette paire car je vais garder une note à mes dossiers que j'ai fait parvenir ces infos pour cette paire là.

(Je n'ai aucune idée de quelle paire j'ai vendue est posée sur cet hélico).

Ciao!

Engineering Order

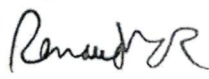

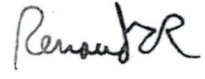

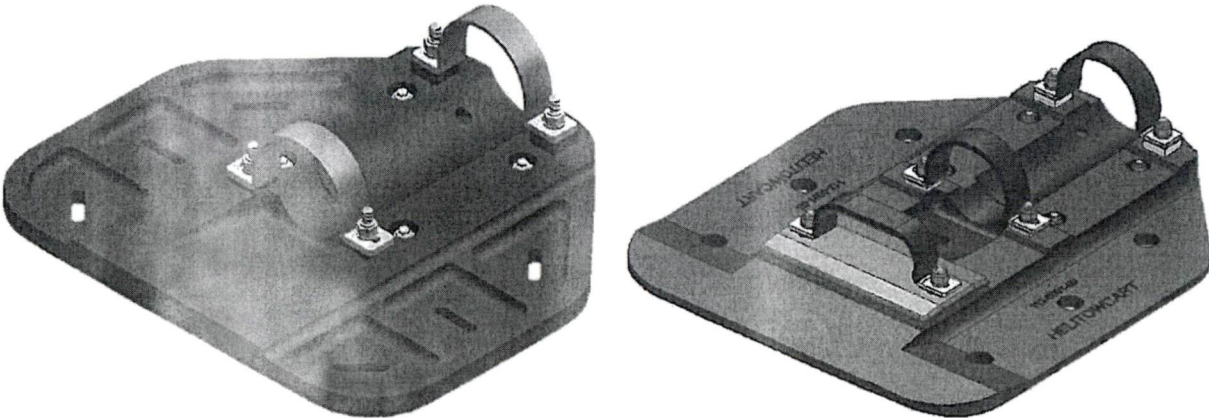

Title: Installation of all BearPaw BP44 Configurations on R66 helicopters				
EO Number: ATS-0709-EO-1000 Rev NC			Date issued: August 09, 2013	
Customer: Helitowcart			Project number: A2007-09	
A/C INFORMATION				
A/C Effectivity: R44, R44 II & R66		Registration / Serial#: N/A		
SIGNATURE				
Prepared by:  R. Berthelot (OIQ #5033095)	Mechanical:  R. Berthelot (OIQ #5033095)	Electrical:  N/A	Verified:  J.-F. Lemire (OIQ #141774)	Approved:  Mirko Zgela (DAR #310)
REFERENCE DOCUMENTS				
[1] AAC-STR-BP-R44-1000, "Structural Substantiation – Helitowcart Inc. BearPaw Model BP44", Rev NC dated July 4, 2006.				
[2] HTC-TM-BP-R44-1000, "Structural Substantiation – BearPaw Streamline BP44", Rev NC dated October 22, 2009.				
[3] ATS-0709-TM-1000, "Structural Substantiation – Addition of R66 Helicopter", Rev NC dated August 09, 2013.				
1. Background Helitowcart has improved its BearPaw design over the years by passing from a pocket configuration with two clips to a longer streamline configuration with two clips and then with three clips. These design changes are shown on Figure 1.				
				

Figure 1 – Pocket (left) – Streamline, Latest Version (right)

2. Structural Compliance

Structural compliance of BearPaw BP44 installation on the R44 and R44 II helicopters was demonstrated in reference [1] for the pocket configuration and in reference [2] for the streamline configuration with two clips.

Structural compliance of BearPaw BP44 installation on the R66 helicopter was demonstrated in reference [3] for the streamline configuration with two clips (the third clip was neglected). This two clip configuration is the most critical since the streamline configuration with three clips and the pocket configurations are stronger.

Therefore, all BearPaw configurations comply with FAR 27 structural requirements and can therefore be installed on the R66 helicopter.

3. Installation on the R66 Helicopter

Helicopter skids are identical for the R44, R44 II and R66 helicopters. Therefore, installation of BearPaw BP44 on the R66 helicopter is to be performed with the original installation instructions provided with the BearPaw at the time of acquisition (Table 1).

Description of Type Design Change:

Installation of Helitowcart BearPaw

**Installation/Operating Data,
Required Equipment and Limitations:**

For the Robinson Models R44, R44 II and R66 Helicopters:

Installation of Helitowcart Bear Paw BP44 is to be performed in accordance with TC approved Helitowcart Master Document List Report: HTC-MDL-BP-R44-1000, Revision D dated August 28, 2013, or later Transport Canada approved revision.

The BearPaw must be installed in accordance with Helitowcart Document: 314-0011-00, BearPaw Model BP44, Installation Instructions - R44/R66, Revision E dated August 09, 2013 or later Transport Canada approved revision.

See Continuation Sheet Page 2 of 2

Conditions: This approval is only applicable to the type/model of aeronautical product specified therein. Prior to incorporating this modification, the installer shall establish that the interrelationship between this change and any other modification(s) incorporated will not adversely affect the airworthiness of the modified product.

Jean-Pierre Francoeur
For Minister of Transport

Canada

(Continuation Sheet)

Number: SH06-24 Issue 4

NOTE: THIS ADDENDUM SHALL REMAIN PART OF THE CERTIFICATE REFERRED TO THEREIN.

**Installation/Operating Data,
Required Equipment and Limitations (Cont'd):****For the Eurocopter (formerly Aerospatiale) AS350 and AS355 Series Helicopters:**

Installation of Helitowcart Bear Paw BP350 is to be performed in accordance with TC approved Helitowcart Master Document List Report: HTC-MDL-BP-AS350/355-1000, Revision F dated April 8, 2010, or later Transport Canada approved revision.

The BearPaw must be installed in accordance with Helitowcart Document: 314-0020-00-E, BearPaw Model BP350, Installation Instructions – AS350/355, Revision F dated December 21, 2012 or later Transport Canada approved revision.

For the Eurocopter EC 130 Helicopters:

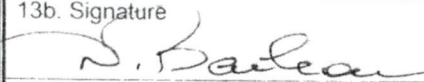

Installation of Helitowcart Bear Paw BP130 is to be performed in accordance with TC approved Helitowcart Master Document List Report: HTC-MDL-BP-EC130-1000, Revision A dated May 13, 2011, or later Transport Canada approved revision.

The BearPaw must be installed in accordance with Helitowcart Document: 314-0031-00-A, BearPaw Model BP130, Installation Instructions – EC130, Revision A dated May 04, 2011 or later Transport Canada approved revision.

January 7, 2014

Object: Shorter Bolts for tighter fit on Bearpaws for R44/R66

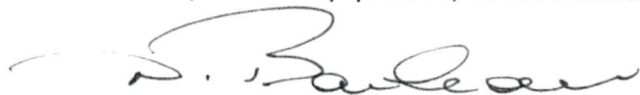

To whom concerned,

It has been brought to our attention that some cases call for slightly longer or shorter bolts to get the best fit in attaching the U-Clips to the skids. As mentioned in the installation instructions, the use of longer or shorter bolts may be adjusted as required (314-0011-00- Rev. D - p 3/14, Step 3).

We have thus included in this package, extra bolts to allow you to adapt installation to your preference. In most cases shorter bolts may be needed so the extra bolt package includes AN4-14A:

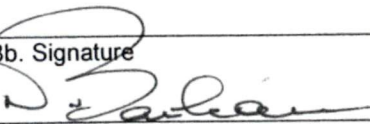

Original bolts package contains:		Suggested installation: (Additional parts supplied)	
Front tip:	AN4-16A	Front tip: AN4-15A	
Center:	AN4-15A	Center: AN4-14A & Add Filler block as needed	
Aft:	AN4-15A	Aft: AN4-16A	

Should you have any question, do not hesitate to contact us.

Nathalie Barbeau
VP Commercial Affairs,

Subject: RE: Approb rétroactive de BP44 pour R66 - Documents sont arrivés

Allo Pierre,

J'ai trouvé une vente faite le 4 nov 2011 à Marcel Boutin avec livraison au 5900 route de l'aéroport à St-Hubert. Est-ce chez toi? Est-ce qu'il y avait déjà des R66 au Qc en nov 2011?

C'est la seule paire vendue au nom de Marcel Boutin dans mes dossiers et j'ai pas de paire vendue sous le nom de JF Cusson.

Donc je crois qu'il y a de fortes chances que ce soit la bonne mais mon doute réside dans le fait qu'il s'agit d'une vente faite en 2011?

Est-ce possible?

Objet : Approb rétroactive de BP44 pour R66 - Documents sont arrivés

Allo Pierre,

J'ai enfin reçu le STC et l'ordre de changement pour les bp44 qui sont acceptées pour être installées sur un R66. Ci-joint les documents promis.

Peux-tu me dire le no du certificat Form 1 que j'ai émis alors? Je veux garder une note à mes dossiers que j'ai bien fourni les infos.

Si tu n'as pas le no du certificat avec toi, as-tu le nom de la personne qui a acheté la paire? (Je n'ai rien à ton nom dans ma base de données des certificats émis depuis un an)

erci!

Department of Transport

Supplemental Type Certificate

This approval is issued to:

Helitowcart (Vanair Inc.)
877A, Alphonse-Desrochers
St-Nicholas, Lévis, Québec
Canada G7A 5K6

Number: SH06-24

Issue No.: 4

Approval Date: August 17, 2006

Issue Date: October 10, 2013

Responsible Office:

Québec

Aircraft/Engine Type or Model:

See Continuation Sheet on Page 2 of 2

Canadian Type Certificate or Equivalent:

See Continuation Sheet on Page 2 of 2

Description of Type Design Change:

Installation of Helitowcart BearPaw

**Installation/Operating Data,
Required Equipment and Limitations:**

For the Robinson Models R44, R44 II and R66 Helicopters:

Installation of Helitowcart Bear Paw BP44 is to be performed in accordance with TC approved Helitowcart Master Document List Report: HTC-MDL-BP-R44-1000, Revision D dated August 28, 2013, or later Transport Canada approved revision.

The BearPaw must be installed in accordance with Helitowcart Document: 314-0011-00, BearPaw Model BP44, Installation Instructions - R44/R66, Revision E dated August 09, 2013 or later Transport Canada approved revision.

See Continuation Sheet Page 2 of 2

Conditions: This approval is only applicable to the type/model of aeronautical product specified therein. Prior to incorporating this modification, the installer shall establish that the interrelationship between this change and any other modification(s) incorporated **will not** adversely affect the airworthiness of the modified product.

Jean-Pierre Francoeur
For Minister of Transport

Canada

*(Continuation Sheet)*

Number: SH06-24 Issue 4

NOTE: THIS ADDENDUM SHALL REMAIN PART OF THE CERTIFICATE REFERRED TO THEREIN.

**Installation/Operating Data,
Required Equipment and Limitations (Cont'd):****For the Eurocopter (formerly Aerospatiale) AS350 and AS355 Series Helicopters:**

Installation of Helitowcart Bear Paw BP350 is to be performed in accordance with TC approved Helitowcart Master Document List Report: HTC-MDL-BP-AS350/355-1000, Revision F dated April 8, 2010, or later Transport Canada approved revision.

The BearPaw must be installed in accordance with Helitowcart Document: 314-0020-00-E, BearPaw Model BP350, Installation Instructions - AS350/355, Revision F dated December 21, 2012 or later Transport Canada approved revision.

For the Eurocopter EC 130 Helicopters:

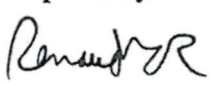

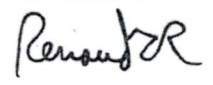

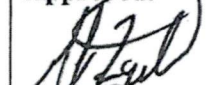

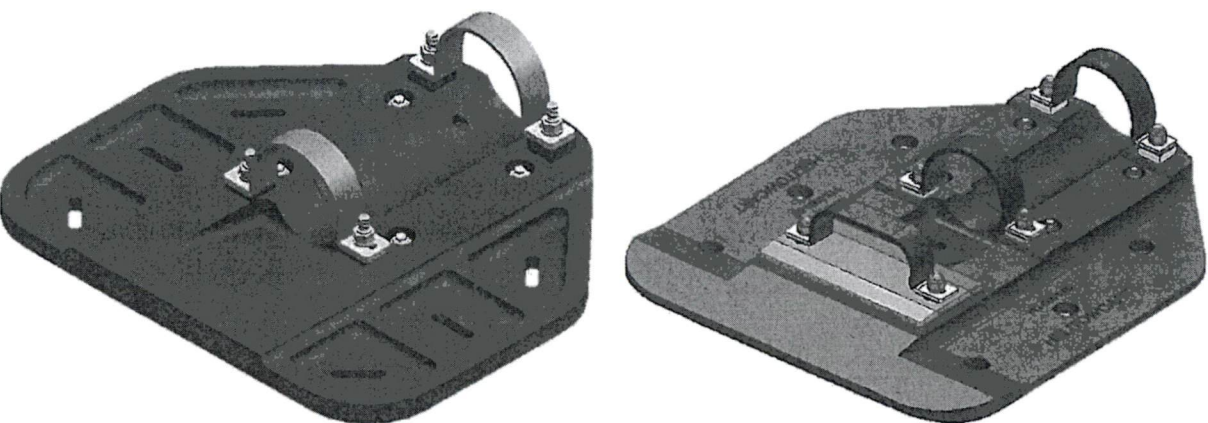

Installation of Helitowcart Bear Paw BP130 is to be performed in accordance with TC approved Helitowcart Master Document List Report: HTC-MDL-BP-EC130-1000, Revision A dated May 13, 2011, or later Transport Canada approved revision.

The BearPaw must be installed in accordance with Helitowcart Document: 314-0031-00-A, BearPaw Model BP130, Installation Instructions - EC130, Revision A dated May 04, 2011 or later Transport Canada approved revision.

Engineering Order

Title: Installation of all BearPaw BP44 Configurations on R66 helicopters				
EO Number: ATS-0709-EO-1000 Rev NC			Date issued: August 09, 2013	
Customer: Helitowcart			Project number: A2007-09	
A/C INFORMATION				
A/C Effectivity: R44, R44 II & R66		Registration / Serial#: N/A		
SIGNATURE				
Prepared by:  R. Berthelot (OIQ #5033095)	Mechanical:  R. Berthelot (OIQ #5033095)	Electrical:  N/A	Verified:  J.H. Lemire (OIQ #141774)	Approved:  Mirko Zgela (DAR #310)
REFERENCE DOCUMENTS				
[1] AAC-STR-BP-R44-1000, "Structural Substantiation – Helitowcart Inc. BearPaw Model BP44", Rev NC dated July 4, 2006.				
[2] HTC-TM-BP-R44-1000, "Structural Substantiation – BearPaw Streamline BP44", Rev NC dated October 22, 2009.				
[3] ATS-0709-TM-1000, "Structural Substantiation – Addition of R66 Helicopter", Rev NC dated August 09, 2013.				
<p>1. Background</p> <p>Helitowcart has improved its BearPaw design over the years by passing from a pocket configuration with two clips to a longer streamline configuration with two clips and then with three clips. These design changes are shown on Figure 1.</p> <div style="display: flex; justify-content: space-around; align-items: center;">  </div> <p style="text-align: center;">Figure 1 – Pocket (left) – Streamline, Latest Version (right)</p>				

2. Structural Compliance

Structural compliance of BearPaw BP44 installation on the R44 and R44 II helicopters was demonstrated in reference [1] for the pocket configuration and in reference [2] for the streamline configuration with two clips.

Structural compliance of BearPaw BP44 installation on the R66 helicopter was demonstrated in reference [3] for the streamline configuration with two clips (the third clip was neglected). This two clip configuration is the most critical since the streamline configuration with three clips and the pocket configurations are stronger.

Therefore, all BearPaw configurations comply with FAR 27 structural requirements and can therefore be installed on the R66 helicopter.

3. Installation on the R66 Helicopter

Helicopter skids are identical for the R44, R44 II and R66 helicopters. Therefore, installation of BearPaw BP44 on the R66 helicopter is to be performed with the original installation instructions provided with the BearPaw at the time of acquisition (Table 1).

Table 1 – Installation Instructions for all BearPaw Configurations

Drawing	Part Number	Description	Installation Instructions

INTRODUCTION

Scope

This installation instruction describes the step-by-step approach to install and to perform maintenance of the Helitowcart BearPaw for your Robinson R44.

General

The Helitowcart BearPaw is made of machined UHMW TIVAR® polymer sheet. This material combines high-impact performance, low friction and good resistance to chemical. Its high durability will provide superior performance to your Robinson helicopter. Any question regarding the Helitowcart BearPaw system shall be directed to Helitowcart Customer Support as indicated in Table (1):

Table 1 – Helitowcart Customer Support

Care of	Mailing Address	Phone, Fax & Email:
Customer Support Helitowcart BearPaw Helitowcart (Vanair inc)	860 Marie-Victorin St-Nicholas, Levis, Quebec, Canada, G7A 3S9	Tel:1 (418) 561-4512 Fax:1 (418) 836-2291 info@helitowcart.com

Helicopter Effectivity

This installation instruction applies to the following ROBINSON Helicopters:

Table 2 – Robinson Helicopter Effectivity

A/C Model	Serial no.	Type Certificate Data Sheet
R44	0271 thru 9999	H11NM
R44 II	1140, 10001 and subsequent	H11NM

Installer Responsibilities

The installer shall ensure that the installation of the Helitowcart BearPaw does not conflict with any other part of the helicopter configuration. Technicians performing this installation should be familiar with A/C work and should have been familiarized with the different Helitowcart BearPaw system components prior to performing a first time installation. All steps in this procedure must be followed. Deviations from the procedures may result in potential structural failure or equipment malfunction and will result in a non-compliant installation.

Reference Documentation:

- [1] Robinson R44 - Maintenance Manual & Instruction for Continued Airworthiness. RTR460.
- [2] Annex A – BearPaw Assembly Drawings (112-0001-00-C & 112-0001-00-E)

Step 1: Helicopter Preparation

- Ensure the helicopter is safe for maintenance;
- Lift the helicopter using the manufacturer recommended practice provided in Ref [1] to allow a clearance of the skid in the area of the aft cross tube of approximately 1 ½" (38mm);
- Remove aft skid wearshoe & re-install the attaching screws.

Step 2: BearPaw Preparation

- With IceBlade Option: Install ice blades (Qty:2) under BearPaw pad as per drawing (112-0001-00) Ref [2];
- With IceBlade Option: Insert washer (Washer P/N 263-0001-17) through threaded part of the ice blade and secure with nut (P/N 262-0001-17);
- Position the BearPaw under skid at the aft intersection with the cross tube as per figure 1 with narrow edge pointing forward.

Step 3: BearPaw Set Up

- Insert washers (P/N 263-0001-17) through all four front bolts: 2x(P/N261-0002-17) & 2x(261-0003-17);
- Insert bolts(P/N261-0002-17) & (261-0003-17) and washer (P/N 263-0001-17) through BearPaw pad as per drawing (112-0001-00) Ref [2]
- If Streamline model, then apply step 3.1. See step 3.1 described below.
- Position the BearPaw pad under the skid
- Insert small filler blocks (P/N314-0012-01) & (P/N314-0014-01) at front of BearPaw& Insert filler blocks (P/N314-0015-01) at center of BearPaw as per drawing (112-0001-00) Ref [2];
- The use of filler blocks mentioned above may be increased, decreased, replaced or complemented by the use of washers (P/N 263-0001-17). Bolts (P/N261-0002-17) & (261-0003-17) may be replaced by longer or shorter AN4 bolts as required.
- Insert both U-shaped clips (P/N 314-0006-15) through bolts: 2x(P/N261-0002-17) & 2x(261-0003-17);
- Insert slotted clip supports (P/N 314-0007-15) through all four bolts. Position slotted clip supports with rounded edge toward helicopter skid;
- Insert washer (P/N 263-0001-17) & screw nuts (P/N 262-0001-17) for a tight fit. Max. torque on nuts 60 in.-lb.

Step 3.1: With the Streamline Version of the Bearpaw (P/N 112-0001-00-E)

- Insert washers (P/N 263-0001-17) through bolts (P/N261-0002-17)
- Insert bolts (P/N261-0002-17) and washer (P/N 263-0001-17) through the rear BearPaw pad as per drawing (112-0001-00-E) Ref [2]
- Insert rear filler block (P/N 314-0022-01) at the rear of BearPaw as per drawing (112-0001-00-E) Ref [2];
- Insert two washers (P/N 263-0001-17) per bolts (P/N261-0002-17) (four washers total)
- Insert Low U-shaped clip (P/N 314-0023-15) through bolts: (P/N261-0002-17) as per drawing (112-0001-00-E) Ref [2];
- Insert slotted clip supports (P/N 314-0007-15) through bolts. Position slotted clip supports with rounded edge toward helicopter skid;

- Insert washer (P/N 263-0001-17) & screw nuts (P/N 262-0001-17) for a tight fit. Bolts (P/N261-0002-17) may be replaced by longer or shorter AN4 bolts as required. Max. torque on nuts 60 in.-lb.

Step 4: Final Step

- Remove helicopter from lift;
- Amend Weight & Balance records as required using data provided in Table 3.

Figure 1 - Installed BearPaw Model BP44 (112-0001-00-C)

Figure 2 - BearPaw Model BP44 Streamline (112-0001-00-E)

BearPaw Removal

Step 1: Helicopter Preparation

- Ensure the helicopter is safe for maintenance;
- Lift the helicopter using the manufacturer recommended practice provided in Ref [1] to allow a clearance of the skid in the area of the aft cross tube of approximately 1 ½" (38mm);

Step 2: BearPaw Removal

- Remove nuts (P/N 262-0001-17), washers (P/N 263-0001-17), slotted clip support (P/N 314-0007-15) and U-shaped clips (P/N 314-0006-15);
- With the Streamline Version of the Bearpaw (P/N 112-0001-00-E) remove nuts (P/N 262-0001-17), washers (P/N 263-0001-17), slotted clip support (P/N 314-0007-15) and rear U-shaped clips (P/N 314-0023-15);
- Remove BearPaw pad (P/N 314-0001-01);
- Inspect skid tubes to confirm serviceability;
- Re-install aft wearshoe with screws as per reference [1];
- Complete installation by putting helicopter back to normal position by removing lift status;
- Amend Weight & Balance records as required.

Weight & Balance

The following information should be used to amend the helicopter weight and balance information following the installation or removal:

Table 3 – Weight & Balance Data

Item	Weight	Lateral		Longitudinal	
		Arm	Moment	Arm	Moment
Helitowcart BearPaw Model BP44	5.9 Lb 2.7 Kg	0.0in. (0.0mm)	0.0lb-kg (0.0mm-kg)	128.5 in 3.26 m	758.1 in-lb 8.8 m-kg
Helitowcart BearPaw Model BP44 - Streamline	7.0 Lb 3.2 Kg	0.0in. (0.0mm)	0.0lb-kg (0.0mm-kg)	128.5 in 3.26 m	889.5 in-lb 10.4 m-kg

Parts Lists

The Helitowcart BearPaw detailed parts list is as follow:

Table 4 – Parts List

Description	Qty	Part No.	Name (Drawing no.)
BearPaw Model BP44	1	112-0001-00	112-0001-00-C / BearPaw Assembly 112-0001-00-E / BearPaw Streamline Assembly
BearPaw pad	1	314-0001-01	314-0001-01-A / BearPaw – Pad (VNR088) 314-0001-01-B / BearPaw – Pad Streamline

INSPECTION

Life Limited Items

There are no life limited items for the Helitowcart BearPaw.

Pre-Flight

Before each flight the following items should be inspected:

- Check that attachment bolts are installed and secured,
- Check that BearPaws are free from visible damage,
- If damage is found, verify allowable damage according to:
 Table 5 – Tolerances for cracks & wear;
 Annex B – BearPaw Allowable Damage Drawing (314-0001-01-A (VNR088) page 2 of 2) or
 Annex B – BearPaw Streamline Allowable Damage Drawing (314-0001-01-B page 3 of 3).

Periodic Inspection Schedule

- The Helitowcart BearPaw shall be inspected every 300 flying hours or yearly whichever comes first.
- The Helitowcart BearPaw can be inspected concurrently with the R44 landing gear inspection.
- Recommended tolerance for performance of inspection is +/- 10% of the 300 hours period.
- Following an inspection, subsequent interval shall be adjusted to meet the original schedule from time of inspection. If inspection is performed earlier than the 10% tolerance, then following inspections shall be scheduled not to exceed the above mentioned tolerance.

300 Hour or Yearly Inspection Details

- Remove Helitowcart BearPaw: See Section "BearPaw Removal",
- Inspect all parts for damage & wear. See table & figure below for allowable damage,
- Replace all damaged parts,
- Replace parts worn beyond the tolerances indicated below.
- See Tolerances for cracks & wear:
 Table 5 – Tolerances for cracks & wear;
 Annex B – BearPaw Allowable Damage Drawing (314-0001-01-A (VNR088) page 2 of 2); or
 Annex B – BearPaw Streamline Allowable Damage Drawing (314-0001-01-B page 3 of 3).

Table 5 – Tolerances for Cracks & Wear

Zone	Nominal Dimension (Inches)	Allowable Damage/Wear (Inches)	Cracks
A	0,350	0,050	
B	1,000	0,250	
C	0,375	0,075	<u>Stiffeners</u> : NO cracks in stiffeners. <u>Pockets</u> : Cracks are acceptable in the Helitowcart BearPaw pocket areas to a maximum length of 0,5" provided they are 0,25" away from the stiffener radius change. Stop drill cracks with a 0,125" hole.
D	0,350	0,050	

E	N/A	N/A	No cracks allowed in zone E
F	0,350	0,050	<u>For P/N 314-0001-01-B Only</u>
G	0,75	0,050	<u>For P/N 314-0001-01-B Only</u>

Overhaul Requirements

- Not applicable for the designated application of this device.

REVISIONS & APPROVAL

Revisions

Date	Rev	Nature of Revisions
April 15, 2010	D	Addition of a rear U shaped clip in the Streamline BearPaw Pad configuration.
October 22, 2009	C	Introduction of new streamline BearPaw Pad configuration as alternate.
September 7, 2006	B	- Added filler blocks and heat shrink to product list. - Modified recommended bolt models (lengthened) - Revised inspection requirements from 100 hour to 300 hour intervals. - Identification of the IceBlade assembly as an optional feature.
June 12, 2006	A	Initial issue

Department of Transport

Supplemental Type Certificate

This approval is issued to:

Helitowcart Inc.
860 Marie-Victorin
St-Nicholas, Levis, Quebec
Canada G7A 3S9

Number: SH06-24

Issue No.: 2

Approval Date: August 17, 2006

Issue Date: December 19, 2006

Responsible Office:

Quebec

Aircraft/Engine Type or Model:

See Continuation Sheet Page 2 of 2

Canadian Type Certificate or Equivalent:

See Continuation Sheet Page 2 of 2

Description of Type Design Change:

Installation of Helitowcart BearPaw Model BP350

Installation/Operating Data,
Required Equipment and Limitations:

For the Robinson Models R44 and R44 II Helicopters:

Installation of Helitowcart Bear Paw Model BP350 is to be performed in accordance with TC approved Helitowcart Inc. Master Document List, Report: HTC-MDL-BP-R44-1000, Revision NC dated August 8, 2006, or later Transport Canada approved revision.

The BearPaw must be installed in accordance with Helitowcart Inc. Installation Instructions Document: "314-0011-00-A, BearPaw Model BP44, Installation Instructions - R44" as specified by Helitowcart Inc. Master Document List, Report: HTC-MDL-BP-R44-1000.

See Continuation Sheet Page 2 of 2

Conditions: This approval is only applicable to the type/model of aeronautical product specified therein. Prior to incorporating this modification, the installer shall establish that the interrelationship between this change and any other modification(s) incorporated **will not** adversely affect the airworthiness of the modified product.

Pierre G. Richard

Pierre G. Richard
For Minister of Transport

NOTE: THIS ADDENDUM SHALL REMAIN PART OF THE CERTIFICATE REFERRED TO THEREIN.

**Installation/Operating Data,
Required Equipment and Limitations (Cont'd):****For the Eurocopter (formerly Aerospatiale) AS350 and AS355 Series Helicopters:**

Installation of Helitowcart Bear Paw Model BP350 is to be performed in accordance with TC approved Helitowcart Inc. Master Document List, Report: HTC-MDL-BP-AS350/355-1000, Revision A dated November 22, 2006, or later Transport Canada approved revision.

The BearPaw must be installed in accordance with Helitowcart Inc. Installation Instructions Document: "314-0020-00-A, BearPaw Model BP350, Installation Instructions - AS350/355" as specified by Helitowcart Inc. Master Document List, Report: HTC-MDL-BP-AS350/355-1000.

Supplemental Type Certificate

IMPORT

Number SR02432NY

This certificate issued to

Helitowcart (Vanair Inc.)
860 Marie-Victorin
Saint-Nicolas, Levis, Quebec
Canada G7A 3S9

*certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of * of the * Regulations.*

Original Product - Type Certificate Number: *

* See Approved Model List AML No. SR02432NY
for list of approved aircraft models, applicable
airworthiness regulations, and required documents.

Make: *

Model: *

Description of Type Design Change:

Installation of Helitowcart Bear Paw Model BP350 in accordance with Helitowcart Inc. Master Document List, Report HTC-MDL-BP-R44-1000, Rev. NC, dated August 8, 2006, or later Transport Canada approved revision.

Limitations and Conditions:

1. Instructions for Continued Airworthiness documents specified in AML SR02432NY or later Transport Canada accepted revisions, are required with this installation.
2. The Installer must determine whether this design change is compatible with previously approved modifications.
3. If the holder agrees to permit another person to use this certificate to alter a product, the holder must give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration

Date of application: March 26, 2007

Date reissued:

Date of issuance: July 20, 2007

Date amended:

By direction of the Administrator

James E. Delnis
(Signature)

for: Anthony Socias
Manager, New York Aircraft Certification Office

(Title)

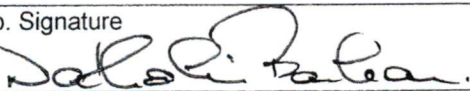

Any alteration of this certificate is punishable by a fine of not exceeding \$1,000, or imprisonment not exceeding 3 years, or both.

Objet: Nouvelle version de certificat de relâche de produit aéronautique pour les « BearPaw BP44 ».

Monsieur Lambert,
Nous avons fait l'objet de notre tout premier audit de Transport Canada le 28 novembre dernier.

Par la présente, nous sommes heureux de vous annoncer que nous avons obtenu notre certificat d'agrément pour la construction et la certification de produits aéronautiques.

À la demande du représentant de Transport Canada, nous devons vous faire parvenir un exemplaire mis à jour du certificat de relâche émis lors de l'acquisition de vos pattes d'ours pour votre hélicoptère Robinson 44. Le certificat a été modifié comme suit :

- Utilisation du no. de pièce enregistré à Transport Canada dans la case 8.
- Remplacement du format de case à cocher de forme carrée par des cercles dans la case 14.
- Ajout de notre nouveau numéro (27-06) de manufacturier approuvé dans la case 16.

Il nous est expressément demandé de récupérer les copies de certificats précédemment émises. Trouvez ci-joint une enveloppe pré-affranchie en vue de nous retourner le dit document.

Nous vous remercions sincèrement de votre attention à cette demande et nous excusons des inconvénients que cela a pu vous imposer.

Nos sincères salutations,

Nathalie Barbeau

Ref : Certificate no : HTC-RC-060905-09. Our invoice no.2341.

Object: New release certificate version regarding BearPaw BP44 aeronautical products.

Dear Mr West,
We have just been subject to our very first audit by Transport Canada on November 28.

We are thus happy to inform you that we have successfully performed the audit and have thus been issued a Certificate of Approval for the manufacturing and certification of aeronautical products.

Answering to Transport Canada's representative, we are required to submit a new release certificate version for your Bearpaws for Robinson 44. The certificate has been updated as follows:

- Introduction of Transport Canada registered part number in section 8.
- Replacement of square outlined checking box to round outlined checking box in section 14.
- Addition of new manufacturer certificate number (27-06) into section 16.

We are being asked to collect all previous release certificate versions. Find included a pre-stamped and addressed envelope to return the mentioned document to our attention.

We are thankful for your attention to this matter and are sorry for the inconvenience it may cause you.

Our Sincere Salutations,

Nathalie Barbeau
Quality Manager,

6 décembre, 2006

Monsieur Jean-François Gélinas,
9165-0465 Québec inc.
4953 Boul Royal,
Shawinigan, Qc G9N 8G5

Ref : Certificat no : HTC-RC-060905-07. Notre facture no.2329.

Objet: Nouvelle version de certificat de relâche de produit aéronautique pour les « BearPaw BP44 ».

Monsieur Gélinas,
Nous avons fait l'objet de notre tout premier audit de Transport Canada le 28 novembre dernier.

Par la présente, nous sommes heureux de vous annoncer que nous avons obtenu notre certificat d'agrément pour la construction et la certification de produits aéronautiques.

À la demande du représentant de Transport Canada, nous devons vous faire parvenir un exemplaire mis à jour du certificat de relâche émis lors de l'acquisition de vos pattes d'ours pour votre hélicoptère Robinson 44. Le certificat a été modifié comme suit :

- Utilisation du no. de pièce enregistré à Transport Canada dans la case 8.
- Remplacement du format de case à cocher de forme carrée par des cercles dans la case 14.
- Ajout de notre nouveau numéro (27-06) de manufacturier approuvé dans la case 16.

Il nous est expressément demandé de récupérer les copies de certificats précédemment émises. Trouvez ci-joint une enveloppe pré-affranchie en vue de nous retourner le dit document.

Nous vous remercions sincèrement de votre attention à cette demande et nous excusons des inconvénients que cela a pu vous imposer.

Nos sincères salutations,

Nathalie Barbeau
Directrice qualité,

Ref : Certificate no : HTC-RC-060905-08. Our invoice no. 2338.

Object: New release certificate version regarding BearPaw BP44 aeronautical products.

Dear Mr Montegani,
We have just been subject to our very first audit by Transport Canada on November 28.

We are thus happy to inform you that we have successfully performed the audit and have thus been issued a Certificate of Approval for the manufacturing and certification of aeronautical products.

Answering to Transport Canada's representative, we are required to submit a new release certificate version for your Bearpaws for Robinson 44. The certificate has been updated as follows:

- Introduction of Transport Canada registered part number in section 8.
- Replacement of square outlined checking box to round outlined checking box in section 14.
- Addition of new manufacturer certificate number (27-06) into section 16.

We are being asked to collect all previous release certificate versions. Find included a pre-stamped and addressed envelope to return the mentioned document to our attention.

We are thankful for your attention to this matter and are sorry for the inconvenience it may cause you.

Our Sincere Salutations,

Nathalie Barbeau
Quality Manager,
Helitowcart (Vanair inc.)

6 décembre, 2006

Monsieur Germain Duchêne,
9102-3366 Québec inc.
324 Boul. Lasalle
Baie-Comeau, Qc
G4Z 1Z6

Ref : Certificat no : HTC-RC-060905-04. Notre facture no.2305.

Objet: Nouvelle version de certificat de relâche de produit aéronautique pour les « BearPaw BP44 ».

Monsieur Duchêne,
Nous avons fait l'objet de notre tout premier audit de Transport Canada le 28 novembre dernier.

Par la présente, nous sommes heureux de vous annoncer que nous avons obtenu notre certificat d'agrément pour la construction et la certification de produits aéronautiques.

À la demande du représentant de Transport Canada, nous devons vous faire parvenir un exemplaire mis à jour du certificat de relâche émis lors de l'acquisition de vos pattes d'ours pour votre hélicoptère Robinson 44. Le certificat a été modifié comme suit :

- Utilisation du no. de pièce enregistré à Transport Canada dans la case 8.
- Remplacement du format de case à cocher de forme carrée par des cercles dans la case 14.
- Ajout de notre nouveau numéro (27-06) de manufacturier approuvé dans la case 16.

Il nous est expressément demandé de récupérer les copies de certificats précédemment émises. Trouvez ci-joint une enveloppe pré-affranchie en vue de nous retourner le dit document.

Nous vous remercions sincèrement de votre attention à cette demande et nous excusons des inconvénients que cela a pu vous imposer.

Nos sincères salutations,

Nathalie Barbeau

Ref : Certificate no : HTC-RC-060905-02. Our invoice no. 2297.

Object: Release Certificate for BearPaw BP44 aeronautical products.

Dear Mr Makinen,

We have just been subject to our very first audit by Transport Canada on November 28. We are thus happy to inform you that we have successfully performed the audit and have thus been issued a Certificate of Approval for the Manufacturing and Certification of Aeronautical Products.

In order to provide with all necessary information required to install your bearpaws, we have included the following:

1. Your Authorized Release Certificate for the bearpaws.
2. A copy of our Supplemental Type Certificate for the bearpaw products, issued by Transport Canada, (no STC06-24), &
3. A copy of our Certificate of Approval for the Manufacture and Certification of Aeronautical Products also issued by Transport Canada (no 27-06).

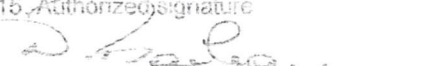

You or your mechanics are welcome to contact us for further details.

Our Sincere Salutations,

Nathalie Barbeau
Quality Manager,
Helitowcart (Vanair inc.)

IMPORTANT NOTICE

Helitowcart BearPaw pending EASA approval

August 31, 2006

To whom concerned,

The Helitowcart BearPaw BP44 for the Robinson 44 helicopter has been approved by Transport Canada (STC no: SH06-24). Approval process from EASA and FAA have been triggered, however they are still pending as of today.

Installation of this device on your helicopter is thus not recommended at this time.

We will inform you of the EASA approval as soon as it is confirmed to us.

Yours truly,

Lucien Barbeau,
President,
Helitowcart (Vanair inc.)

Objet: RE: Helitowcart- Follow up

Dear Ms. Barbeau,

Thank you for asking. The tow cart works fine.

I called our mechanic and he told me that Finland is into EASA and all applications for national approval are forwarded to EASA. We cannot use components that do not have EASA approval but if there is an earlier approval in any of the EASA countries, it is allowed to use the product in Finland.

Please let me know if your bear paw has a national approval in any European country.

Before any further arrangements I will check the situation in more details with our mechanic. He is on holidays now and will be back after next week.

Best regards,

Eero Makinen

Subject: Helitowcart- Follow up

Dear Mr Makinen,

We do hope you have received your tow cart, and that you are satisfied with our product.

We have found out that the EASA approval for the bearpaw could take up to a year with the new european organisation! We are expecting our US FAA STC within a few weeks and as you know, we already have the Canadian STC in hand.

Considering this situation, we suggest the following course of actions for your bearpaws:

Verify with your mechanics if your local country aviation agency could approve the application of these bearpaws by recognizing the Canadian or US STCs. We

are suggesting this approach because it appears that not all european countries are into the EASA (is Finland into it?). The reason we propose this

avenue is that we know that our local mechanics here does get specific approvals from our local Canadian transport representative for many applications that do not have direct impact on safety.

If this avenue is not possible for you, Please contact us for further arrangements regarding the possible credit/return of your bearpaws.

We are VERY sorry for this inconvenience.

Yours truly,

Nathalie Barbeau,

St-Nicolas, Qc
G7A 3S9

Ref : Certificat no : HTC-RC-060903-01. Notre facture no.2302.,

Objet: Nouvelle version de certificat de relâche de produit aéronautique pour les « BearPaw BP44 ».

Monsieur Barbeau,
Nous avons fait l'objet de notre tout premier audit de Transport Canada le 28 novembre dernier.

Par la présente, nous sommes heureux de vous annoncer que nous avons obtenu notre certificat d'agrément pour la construction et la certification de produits aéronautiques.

À la demande du représentant de Transport Canada, nous devons vous faire parvenir un exemplaire mis à jour du certificat de relâche émis lors de l'acquisition de vos pattes d'ours pour votre hélicoptère Robinson 44. Le certificat a été modifié comme suit :

- Utilisation du no. de pièce enregistré à Transport Canada dans la case 8.
- Remplacement du format de case à cocher de forme carrée par des cercles dans la case 14.
- Ajout de notre nouveau numéro (27-06) de manufacturier approuvé dans la case 16.

Il nous est expressément demandé de récupérer les copies de certificats précédemment émises. Trouvez ci-joint une enveloppe pré-affranchie en vue de nous retourner le dit document.

Nous vous remercions sincèrement de votre attention à cette demande et nous excusons des inconvénients que cela a pu vous imposer.

Nos sincères salutations,

Nathalie Barbeau
Directrice qualité,
Helitowcart (Vanair inc.)
